DETAILED ACTION

Acknowledged Receipt

Receipt is acknowledged of the changes to the claims, and the remarks related to the previous rejection, all of which were filed on 06/02/2006. The above have been considered and entered.

Allowable Subject Matter

Claims 1-6 are allowed.

Regarding independent claim 1, the prosecution history, especially at the previous Remarks by Applicant (06/02/2006, pp. 5-6) clearly indicates the reasons for allowance. Specifically, the prior art fails to motivate or disclose a plasma display panel with a cavity that is made in the thickness of the said rib and emerges at the top of the said rib, wherein the cavity has sidewalls that extend so as to be level with the top of the ribs, in combination with the remaining limitations of the claim. The Examiner notes that the prior art does disclose cavities having sidewalls that extend so as to be level with the top of the ribs. See for example USPN 6313580 to Makino. However, none of these cavities that have extending sidewalls are made in the thickness of the said rib, nor does any motivation exist to combine these references.

Claims 2-6 are allowable due to their dependency.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."
